#### LOCAL AFFAIRS.

Our Criminal Court .- The Gardiner Case which was given to the jury on friday last, has caused a vast deal to be said respecting our Criminal Court .-Indeed some have gone too far entirely tion. with their expressions, and have made assertions for which there is no foundation. In all this long and wearisome trial, in which the greatest skill of able lawyers has been exerted with a view to obtain decisions from the court to favor this or that side, mistifying this authority inl strengthening that, arguing hour af er hour, and day after day, it is not wonderful that both sides should at times be disappointed. And if the decisions of the court have been most frequently against the popular side, "are we to ex pect that because our opinion is the same as that of a majority that no one has the right to differ?" We make up our opinions from the best authority we obtain and so does the court.

During the trial of this case, the court has decided very differently from what we expected when we remembered the decisions in former cases. Bu the honesty of the decision is what we look at, and we beleive that in all that has been done during this trial the court has endeavored to act impartially and remain perfectly indifferent as to the acquital or convic tion of the accused. But we will say nothing more about this case, and proceed to speak of a subject that concerns our citizens a little.

It is the desire of every honest, orderloving citizen that the laws be executed faithfully, for without it justice fails It has been suspicioned for months pa t 'hat the arm on the law has been paralized by the acts of certain men who lend themselves to offenders in order to escape.-Last Saturday it was stated openly that a hailiff of the court had been directed to summon certain witnesses. He, af er keeping the papers for a short time, re turned them, and stated to the District Attorney, that the witnesses could not be found. The Attorney, placing confidence in the bailiff, quashed the indictment .-Some of the police officers happening to hear of it, inquired and found that such was the case. They say that none of the witnesses have left the city, and they have reason to believe that the bailiff never sought to summon them.

If this be the state of the case, as rumor has given it to the public, that bailiff has imposed upon the Attorney and has tri fled with the court, and deserves not only to be dismissed but I e made to suffer the penalty of every offence which he has hid from the court. We hope the case may be examined. Such an officer of the cour' is ca'culated to do much mischief, and the sooner he is discovered and punished the better for the administration of justice.

The Jury.—The jury in the Gardiner case were in their room at eleven o'clock this morning. There were no indications of a very speedy agreement visible in the faces of those who sometimes appeared a the windows, to "cast a wishful eve" towards their home and places of busi

T'in Election .- Our citizens, who have determined to exercise the privilege of gave security and paid costs. roting at the coming election, are begin ning to warm up a little. It is hard to say which candidate will be the "bes" abused." One thing is certain, all will ing committed to jail. get their share.

New Music. - Our friend George Hilbus announces the recention of some excellent music. George can supply you with any music you want at very short notice. See his advertisement, and leave your orders with him.

Fishing. - The Little falls of the Poto. mac. affords good fishing to carly risers. The British Minister Crampton, and his friend W. Lammon of Georgetown, caught over 300 pound of Rockfish between four o'clock and breakfast this morning.

Silence 1. - Yes'erday some of our Temperance men intended holding a street meeting, and in order to attract an audience, commenced sounding a gong. The Baptain of the Auxilliary Guard, however, interfered, and the gong being silenced, the meeting at that point was postponed.

New Cavalry Corps.-We are glad to learn that the efforts to raise a cavalry of the pupils of the 2d prinary School, company are likely to be successful. Tonight they meet for the purpose of electing officers. As the success of the company depends a great deal upon the choice of its officers at the starting, we trust that judicious selections will be made, and that a costly uniform will be avoided. We wish it success and shall hail its first appearance with a great deal of gratifica-

Others Deserve the Same!-Two worthless fellows insulted the daughters of a respectable citizen residing on the Island, while standing in their father's door .-They informed their brother who returned shortly after; he immediately proceeded to inflict the punishment he thought they deserved. One was knocked down and the other about to follow when a bystander interfered and 'saved his bacon.' In many instances, this is about the only way in which villains can be punished: for, if brought before a magistrate, such characters would not hesitate to swear the head off the Jackson statue. This offence is growing quite common, and something must be done to put a stop to it.

Journeymen Painters .- The workmen of this trade have formed an association for the promotion of their interests, and we learn that it is in a very flourishing condition. Combinations for malicious purposes we are opposed to: but when mechanics combine to advance their own interests, we say go ahead to them, for they really have our good wishes. We are not of the sort that cry onward to every trade but our own-we want to see all prosper. Our motto is-"Success to

Saucy Negross .- Last Saturday night a white woman applied to Captain Goddard for a warrant to arrest a negro who had assaulted her with indecent language. The lady did not make use of very choice language herself; but her statement of the rapid increase of insolent negroes was strictly true, as it is a very common thing for negroes to collect in gangs upon the sidewalks and the gangways of the mar ket, and puff segars in the faces of bypassers, and making use of profane and indecent language while ladies are passing.

Ichahod.-W. D. Wallack, esq., is the author of the letters over the signature of "Ichabod," which have been appearing in the Republic, and not ex-Senator Westcott, as has been reported.

Canal.—The lock-keepers on the Ches apcake & Ohio Canal are to receive fifty dollars per lock for those who keep one or two locks, and twenty five dollars per lock for those keeping four locks, after the 1st of June.

Off They Go!-The excursionists for Philadelphia, by Perham's grand Pano rama arrangement, will start to morrow and next day in any of the regular trains The number will probably be quite large Success to Colonal Perham! He is the Napoleon of excursionists.

School Examination, -An examination First District, conducted by Mrs. Rodier, assisted by Miss Adeline Lowe, took place on Thursday and Friday afternoons in the presence of Messrs. Abbott, Haliday, Bacon, Randolph, Pearion, and Dr. Walsh, Trustees.

The examination of Miss Lowe's department of seventy six little girls was gone through with in a manner quite satisfactory to the examining trustees.

Mrs. Rodier's pupils were examined on Friday, and did remarkably well, about thirty of them showing the great want there is of a District Grammar School at this time in the First Ward, to which these advanced children should be removed. The school house accommodations also are very imperfect

The next examination is that of Miss Millburn's School on 41 street. (Island,) on Tuesday afternoon: Miss Middleton's in the same neighborhood on Thursday, and Miss Joyce's, 2d District Schoolhouse, on Friday af ernoon.—Int.

Fire.—The alarm of fire yesterday morning about one o'clock, was caused by the burning of a framestable in the First Ward belonging to Elias Barnes. The loss was small.

Capt. Skinner, of the ship Herman, which stopped at the island of Juan Fernandez, March 27th, for water, writes that he was much surprised to find a settlement of about three hundred persons there, headed by a governor. They were very kind, and furnished the ship with supplies. The same ship stopped at this island two years ago and found no inhabitants.

Dr. J. S. ROSE'S GOLDEN PILLS. For Diseases of the Womb and Female Wealness. Also, for Weakness of the Back, Spine, Loins, &c., they have no equal.

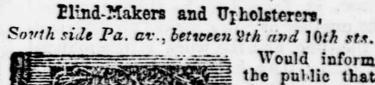

THIS DISEASE, heretofore treated by bandages, trusses, and internal supports which can only prove palliatives, yields completely to the use of these tonic, strengthening Golden Pills. They have a peculiar affinity for the debilitated muscles of the Female, and in no instance have they failed in radically curing those distressing complaints females are so often subject to; they brace he whole system, giving strength and vivac-

ity to the frame at large. Twenty-seven years experience in the use of these Pills in my practice has been the means of dispensing with more bandages. abdominal supports. pessaries, and golden balls, than many individuals now manufacture. Females of the present age are as perfectly formed as mother Eve. or those mothers of antiquity, and require no external support. The muscles of the body, kept in due tone by remedies of this character, are a sufficient support, and all that nature ever intended.

These Pills have been pronounced by the housands, (emongst whom was the wife of a distinguished Senator from Louisiana, and the widow of an ex-Governor of Delaware.) who have used them, as superior to anything hith-J. S. ROSE, M. D.
